

Stacie J. Kyle CSS '94

I am in my second year serving on the current HEAA Board as a Regional Events Coordinator and I would like to expand upon this role as Director, Regional Engagement. I feel my skills, energy and enthusiasm combined can support this position in growth of alumni membership and endorsements.

For the past 20 years, I have worked in Information Technology consulting with many of the Fortune 500 companies in their IT strategies for new business models, processes and systems. I have spent most of my career working with companies to build and improve their international division infrastructure, especially in the emerging and developing markets. I currently work with C-level technology leaders building strategies for Cloud solutions, the next biggest area of transformation for technology organizations.

I have always been a volunteer and had the privilege of building a non-profit 501c earlier in my career. (Action Dance Theater, Salem, Ma.) Currently, I spend a lot of my time in animal rescue and breeding reform and am currently on the board of the National Alliance for Dog Breeder Reform (NADBR) as the VP of Fundraising. My skills are in communication and engagement, in the ability to attract, retain and grow volunteers and sponsors through the use of technology social media and networking.

Most importantly, I have always been thankful for my opportunity to receive a C.S.S. degree from the Harvard Extension School and would sincerely love to pay it forward and support HEAA through a position on the Alumni Board. My intention for this role is to support HEAA's mission, purpose, goals, policies and programs and communicate the purpose of Regional Engagement clearly and enthusiastically. I will represent both my school and the board with the highest of integrity. Please consider me for this position to represent this terrific school.
